

# Irrigation Supplier List

Are you ready to take the plunge with irrigation after going inside [Flower Farming School Online](#) and watching my irrigation video session?

I've given you everything you need to tackle the job folks--- I can't emphasize enough just how easy it is and with the help of a supplier you got this!

Below are my go-to suppliers for irrigation supplies, kits, and advice. The first three suppliers also have great video tutorials. Most offer excellent phone support to help with planning, purchasing, and troubleshooting. I will warn you; it is best to make system planning troubleshooting phone calls in the off season; they get crazy busy when it's the hot and dry season!

When ordering larger systems, keep in mind supplier location for best shipping rates.
